To Whom it May Concern:

Inspectra Home, Inc. has a very professional and positive approach. Our clients have expressed how satisfied they have been with their inspection experience. As Realtors, we find it extremely important that we, as well as our clients, are able to understand the reports in great detail. After the inspection, it is easy to address and discuss any major concerns that the inspector has reported on. Inspectra Home's reporting system far exceeds our expectations. We will continue to recommend their services to all of our family, friends, and clients.
